

PROFESSIONAL'S CHOICE™

Economy Pasture Mix

Professionals's Choice Economy Pasture Mix is a multi purpose seed mixture. This mixture will give high forage quality, good persistence and excellent seedling vigor. Use where no legumes are desired or to rejuvenate old tired pastures.

AREAS OF USAGE

- Grazing
- Hay
- Silage
- Green Chop
- Overseeding
- Frost Seeding

Forage Type Tall Fescue - used for its palatability, excellent spring vigor, deep root system which produces a tough sod when seed thickly and grazed or mowed. It is tolerant of poor drainage, and is also drought resistant. Production of forage is abundant with irrigation and high fertility levels. Forage Type Tall Fescue is adapted to a wide range of soil and climatic conditions.

Zorro Italian Ryegrass - Palatable and nutritious cool-season bunchgrass often used on lowlands, soil with poor drainage, and on acidic soils. Does well in cool, moist regions with mild winters. Grows well on heavy soil. Tolerates heavy grazing. Tetraploid ryegrass are more vigorous, leafy, drought resistant and palatable than diploid varieties. Produces early vigorous growth.

Timothy - Winter hardy bunchgrass is easy to establish, and is well known for a premium horse hay. Adapted to fertile, moist, medium heavy soils of the Pacific Northwest. Responds rapidly to fertilization. Mixed well in combination with other grasses and legumes. Timothy is easy to establish, used extensively for revegetation of tired pastures.

Annual Ryegrass - Very similar to perennial ryegrass, except it is an annual grass. Germinates rapidly and provides early growth. Used extensively for pasture, hay, silage and cover crops. Adapted to a wide range of soil conditions. Palatable, tolerates heavy grazing.

New Pasture Seeding Rate:

Broadcast - 40 to 50 lbs per acre

Drilled - 15 - 25 lbs per acre

Pasture rejuvenation Seeding Rate:

Broadcast - 20 - 25 lbs per acre

Drilled - 10 - 15 lbs per acre

DISTRIBUTED BY:

The economical pasture mix gives quick cover, great and is great for overseeding old tired pastures, green chop, hay, silage and frost seeding. Great for horses, donkeys, sheep, goats, cows and many other types of livestock.
