

QUALITY TURF FERTILIZER PROGRAM

Approximate Date of Application	Product	Application Rate Per 1000 sq.ft.	Actual Nitrogen Application Per 1000 sq.ft.		
February 15	Moss Kill 10-4-6	6.6 lbs	0.66		
April 1	All season 25-7-12	4 lbs	1.0		
June 1	All season 25-7-12	6 lbs	1.5		
August 1	All season 25-7-12	6 lbs	1.5		
October 1	All season 25-7-12	4 lbs	1.0		
November 15	K-Special 12-12-28	6.25 lbs	0.75		
December to February	Calpril	50 lbs/1000 sq.ft.			
			<u>N</u>	<u>P</u>	<u>K</u>
<i>Totals</i>			6.41	2.41	4.55

MOSS KILL 10-4-6 w/10% IRON*
All Season Fertilizer
 A quality quick green and moss killing fertilizer blend developed to produce dark green color rapidly in turf that has faded and yellowed.

K SPECIAL, 12-12-28
Premium High K Spring & Fall Fertilizer
 Features 55% slow release Duration Type II Nitrogen with high Potassium to winterize turf and build carbohydrate reserves while increasing root structure.

All Season, 25-7-12
Spring & Fall Fertilizer
 Premium all season fertilizer 60% of the nitrogen being of a slow release type to promote strong but steady turf growth over an 8 week period.

CALPRIL
A finely ground, prilled, Calcium Carbonate
 Furnishes calcium, provides pH adjustment and is easy to apply. For lawns, gardens, farms, golf courses & institutional turf.

DIRECTIONS: Apply the amount of fertilizer prescribed, evenly and uniformly. Irrigate the treated area following application. Generally, the prescribed application will be at the medium rate. Applicator judgment and experience should be used with this and all other fertilizer products. Please call your local Woodburn Fertilizer Representative with any questions regarding special situations or conditions pertaining to application rates.

***CAUTION:** Iron and other plant nutrients can cause staining. These products contain Iron and should be swept off concrete immediately after application and prior to rain or irrigation.
